# Rubrics for Engineering Educators

An assessment rubric is a series of descriptors, carefully designed by educators, that facilitate the analysis and marking of student work. Rubrics embody interesting questions about how they are constructed, to what extent they are valid and reliable, and whether they cast light on what students will encounter as ‘troublesome concepts’.

Curating assessment rubrics that have been tested with engineering student cohorts, this sub-group aims to highlight:

- Exemplar rubrics for topics across the breadth of the engineering curriculum
- How rubrics can shed light on ‘troublesome concepts’ across engineering curricula
- Scholarship related to rubric construction, or how they are used in practice (for example in team marking, when shared with students to guide assessments, or when co-constructed with students)

# Getting started

Uploading your work is really very simple. It doesn't take hours to set up an account and you can add any type of file.

View our [Quick Guide for Authors](#), our [Submit!](#) page or our [‘How to add items’ video](#).

You can also visit our [Getting Started](#) pages or [Figshare FAQ's](#) for further support are available. Here are some things to consider before you begin to upload:

- Is your work compliant with current accessibility legislation?
- Which category, group, sub-group or add key words will you add to help others to locate your work.
- Create a Figshare Profile and link it to your social media accounts and [ORCID ID](#) to maximise the visibility and impact of your work.

**Click to [HERE](#) to Submit**
