

Be More Magpie.....Active Reflection Sheet

This is your Magpie Sheet. It is here to prompt reflection and to help you gather "shiny" things from the conference that you would like to take back to your nest! It is a way to capture as you listen and engage. If you build as you go then things are less likely to be lost. Below you will find a series of prompts to ponder as you hear from colleagues. Consider your own practice and how you would like to take this forward. You can print this sheet out and scribble over it or make notes separately.
