

The Four Pillars of SoTL

01 PASSION

Establish what your passion is in SoTL. What will be the golden thread running through your SoTL activity? What brings you SoTL joy?

02 PEOPLE

Who do you need around you to support your work? Are there any networks, groups, externals you should connect up with? Find your tribe and link up with them!

03 PLACE

Where is your work going to take place and with whom? Is it with students or staff? Is it within your own department or can this work be taken external?

04 PLAN

This is important at all stages of SoTL. Make a plan! It will change but giving yourself a road map to where you want to go will really help you to build your SoTL and grow.
